

# Product Data Sheet

## Omnistab UV-1

**CAS No** : 57834-33-0  
**Chemical name** : N-(Ethoxycarbonylphenyl)-N'-Methyl-N'-Phenylformamidine  
**Molecular formula** : C<sub>17</sub>H<sub>18</sub>N<sub>2</sub>O<sub>2</sub>  
**Molecular weight** : 282.34  
**Molecular structure** :

### Standard specifications

TEST	SPECIFICATION
Appearance	Light yellowish liquid
Content (%)	98.5 min

**EC No** : 260-976-0  
**HS code** : 2933990090  
**REACH No** : 05-2114350165-56-0000

### Characterization / application

Omnistab UV-1 provides excellent light protection to polyurethane systems, such as coatings and skin foams, semi-rigid and flexible foams, fabric coatings for synthetic leather, but also to some adhesives, sealants and plasterers. The product can also be used in other polymeric systems where a liquid stabilizer is preferred.
