Global Funnel for Tight Head Drums

- Securely fits nearly every 55-gallon tighthead steel or polyethylene drum manufactured throughout the world
- This "one of a kind" funnel features eight (8) locator feet with four (4) different centers around its lower circumference. These design elements allow the Ultra-Global Funnel to fit tightly on drums with varying diameters. No more wobbles or tips!
- Rugged, polyethylene funnel offers a 22" wide "target", eliminating over spills which commonly occur with conical funnels.
- Patented, zig-zagged pouring surface quickly settles liquids as they are being poured.
- Horseshoe design feature allows installation of a Pop Up Fill Gauge - allows accurate monitoring of liquid level inside the drum to prevent messy overfilling.
- Lockable cover prevents contamination of contents.
