## Hidden Containment Bladder Automatically Unfurls To Capture Large Spills Or Drum Leaks

- Ultra-Spill Deck Bladder Systems are low profile, polyethylene containment decks which meet EPA and Uniform Fire Code Spill Containment Regulations. Available in 1, 2 and, 4-drum modules, the low 5 3/4" deck height allows safe and convenient drum loading, even without drum handling equipment. Add the optional polyethylene loading ramp for even greater handling ease.
- Compact footprint saves valuable floor space – perfect for drum waste collection usage.
- Use the Spill Deck Bladder Systems in place of taller containment pallets – low 5 3/4" deck height offers significant safety and handling benefits. Overspills and small leaks are captured in the sump; catastrophic leaks deploy the bladder, allowing the system to meet regulations.
- **Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175, and UFC Spill Containment Regulations.**

2330  
Funnel not included

2329

Rugged polyethylene bladder provides 66 gallons of additional containment.

1320  
Funnel not included

2317

Polyethylene bladder is housed inside the Bladder Attachment. Connect the Bladder Attachment to the Spill Deck in seconds – no tools required!

Spill Deck Bladder Systems require adequate aisle space to allow the Bladder to unfurl properly.

Ultra-Spill Deck Bladder Systems®						
Part#	Description	Dimensions in. (mm)	Uniformly Dist. Load lbs. (kg)	Containment Capacity gal. (L)	Sump Capacity Prior to Spill Entering Bladder gal. (L)	Weight lbs. (kg)
