1 Gallon Open Head Pail

Shipping Data

Capacity: 1.064 gallons (US) to rim
1.019 gallons (US) to cover

Ocean Shipping Cube: .26 cu. ft.

Tare Weight: .615 pounds with cover:

Material

Prime Virgin, FDA Approved, high density polyethylene, .065 in. minimum wall thickness with bail.

Construction

The container is molded in one piece with the body tapered to permit one pail to nest inside another for economical storage and shipping. The ears for the bail are molded as an integral part of the container.

Cover

An all plastic cover with a tubular gasket will accommodate the wide variety of products packaged in the Paragon pail.

Testing

Guidelines for use of the pail should be established by the individual fillers taking into account the many variables encountered, such as ambient and fill temperatures, stacking arrangements, internal and external pressures, compatibility and permeability.

Packing

180 Covers per Carton
180 Pails per Carton
