The
CARYCOMPANY
Est. 1895

3-1/2 Gallon Open Head Pail

Shipping Data

Capacity: 3.9 gallons (US) to rim
3.7 gallons (US) to cover

Ocean Shipping Cube: .86 cu. ft.
Tare Weight: 2.3 pounds with cover:

This container may be shipped under Package Specification Item 258 of National Motor Freight Classification and Test Procedures per Rule 40 of the Uniform Freight Classification.

Material

Prime Virgin, FDA Approved, high density polyethylene, .090 in. minimum wall thickness with bail.

Construction

The container is molded in one piece with the body tapered to permit one pail to nest inside another for economical storage and shipping. The ears for the bail are molded as an integral part of the container.

Cover

An all plastic cover with a tubular gasket will accommodate the wide variety of products packaged in the Paragon pail. Available with a pour spout and a variety of closures.

Testing

Guidelines for use of the pail should be established by the individual fillers taking into account the many variables encountered, such as ambient and fill temperatures, stacking arrangements, internal and external pressures, compatibility and permeability.
